

INNOVA

MINI AMP

13-032

INSTALLATION INSTRUCTIONS

INCLUDED:

Mini Amp w/ built in bluetooth

TOOLS NEEDED:

Phillips Screw Driver
Wire Stripper
Crimp Tool

Mini Amp w/ built in bluetooth

Professional installation is recommended. If you choose to not have this product installed by a professional, we highly recommend that you exercise caution, care, and patience when installing this product.

1

Make sure your cart's TOW/RUN switch is in the tow position.

2

Locate where you would like to mount your mini amp.

Note: Do not mount in battery box.

3

The Mini amp needs to be powered by a switch, it is not designed to stay on constant. We recommend using a DC to DC converter to achieve this.

NOTE: FOR GAS CARTS ENSURE YOU HOOK POWER WIRE TO THE SWITCHED SIDE OF KEYSWITCH

(Blue Tooth)

You will need to pair your device with the blue tooth receiver. Turn on your device and search for the signal. Once your device has found the blue tooth receiver it will ask for a pairing code. That code is "0000". You will only need to do this once.
