

Yamaha G16-22 Skid Plate Part# 6273

Parts List Skid Plate-1

*Always wear appropriate
eye protection!*

Installation Instructions:

1. Jack the rear of the car up and place it on jack stands.
2. Remove the three rear-end bolts shown in FIGURE 1.
3. Install the skid plate using the three rear-end bolts you just removed as shown in Figure 1.
NOTE: If your car has a bottom panel like shown in Figure 1 it will need slightly bent for skid plate clearance.
4. Securely tighten all bolts.
