

RDC CC2 WDGR WO BRKT RADIO CONSOLE

Installation Instructions for Club Car

1. Install the mounting brackets to the console using the screws provided. Set the bracket into the console and drill the center screw hole first. Install the center screw, then add the two end screws.

2. Set the console on the cart top and slide it as far forward as allowed by the top design. Place your hand on the console and push upward (with force) until the brackets flatten out flush. While holding it in this position, mark the 4 mounting holes for drilling.

3. Using a 1/4" drill bit, drill the 4 holes you have just marked. Install the bolts, radio and if necessary, the optional lid (Part #OCL000) making sure all fasteners are secure and tight.
