

Wear the appropriate eye protection!

SCB EZO BSKT  
TXT/Medalist  
Clays Basket

Note: the other sets of brackets are for other applications such as the Workhorse series.

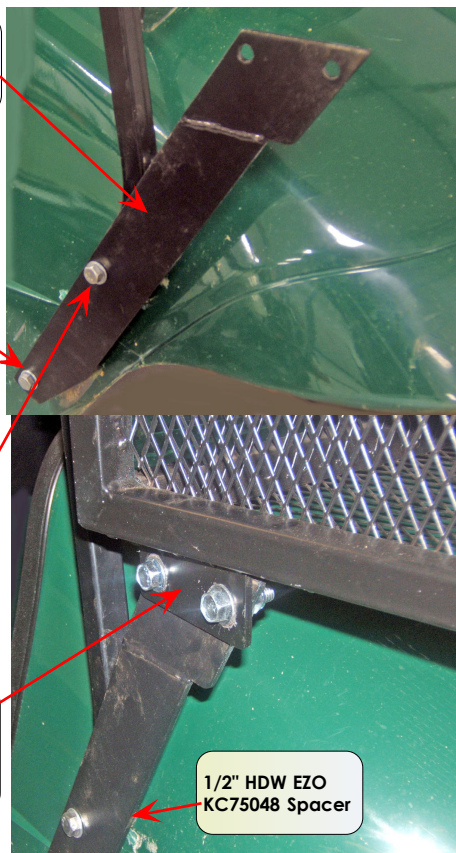

For TXT/Medalist use the 14 1/2" mid-length brackets

Remove one bottom roof support bolt. Place a basket bracket over the vacated bolt hole. Insert the removed bolt through the basket bracket, roof support and finger tighten.

Remove the top roof support bolt. Rotate the basket bracket in place and insert the removed bolt. Make sure the 1/2" spacer between the roof support and cart is in place. Leave both bolts finger tight at this point.

Repeat this procedure on the other side.

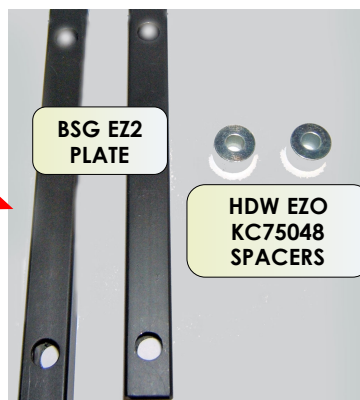

Set the new basket on top of the brackets. The basket mounts fasten to the outside of the basket brackets. leave hardware finger tight for now.

1/2" HDW EZO  
KC75048 Spacer

If your cart does not use a sun roof (top) you will need to order separately (2) BSG EZ2 PLATE spacers and (2) HDW EZO KC75048 SPACERS.

Now that everything is in place. Tighten the roof support bracket bolts. Next, tighten the basket mounting bolts (while holding the basket level).
