ITEMS INCLUDED

Rear Goalpost
Rear Frame
Warning label

We recommend professional installation. If you choose to not have this product installed by a professional, we highly recommend that you exercise caution, care, and patience when installing this product.

Always wear appropriate eye protection

STEP 1

Uninstall steering wheel by removing 6 hex screws from the center hub using provided 3mm allen key. Once finished remove steering wheel.

STEP 2

Remove outer ring cover from bluetooth controller.
NOTE: Innova logo should be at the top

STEP 3

Place Bluetooth remote on center of steering wheel. Align steering wheel holes to hub.

NOTE: Battery is located at bottom of controller. Push down and slide downward to activate.

STEP 4

Place ring over remote and reinstall steering wheel using retained hardware from step 1.

NOTE: INNOVA should be at the top.

Remote Operation Guide

- Insert battery into the Bluetooth remote. After successful installation you will see **ONE** red flash from the LED.
- The LED will flash continuously until the remote is paired with a device.
- The remote will appear as "Mulitkey" on your device.
- Pair your phone with **BOTH** the Bluetooth remote and the Bluetooth sound system you are trying to control.
- A blue LED on the remote will flash **ONCE** when any key is pressed after successful pairing.
- Volume up, volume down, play, pause buttons function the same for both Apple and Android phones
- The square symbol functions as a home key for Apple phones or a sleep key for Android phones
- Pressing the microphone button for two seconds activates Siri for Apple phones and functions as the home button for Android phones
- The red LED flashing **TWICE** indicates that the remote's batteries are low.
