

DSA YA5 ORG
WDGR Dash
Organizer

Caution: Wear the appropriate eye protection during installation!

Install the brackets on the flat area past the curvature of the windshield frame. A 1/4" drill bit will be sufficient.

3) Set the Organizer in place. Take special care to have equal alignment on both ends to allow for proper Velcro installation
4) With everything squared mark the location of the Velcro location on the Organizer

5) Apply the Velcro to the bottom of the Organizer in the location just marked
6) Apply the other half of Velcro to the mounting bracket
7) Set the dash in place taking care of proper alignment to the Velcro and press firmly into place

Tech Tip:
It is not advised to drill mount this product! If drill mounting is desired a professional repair shop must perform this as special tools for drilling are required!
