You might even keep some of these for yourself!

Buggies Unlimited has gift ideas to take the gift-giving guesswork out of the season. So relax with some eggnog and pat yourself on the back because we've just taken care of everyone on your "Nice List."

Gotta-Have Stocking Stuffers: UNDER \$50

USB Charging Accessories/Ports – You know that time your buddy said he saw a dinosaur-sized alligator on the golf course, but his phone died, and he couldn't take a photo to show you, and you didn't believe him? Yeah, we've been there, too. Do him a favor and hook him up with a USB charging port, so he's always got a full phone battery for those important alligator sightings or when his wife needs him to stop and get dinner.

Side Mirrors with LED Blinkers
#03-130 **\$39.95**

Mirrors – More for just checking out how cool you look in your golf cart, mirrors are for safety and are required by law if you want to take to the streets. Show someone that you care about them with street-legal side or rearview mirrors, so they can join you on the road for a cruising adventure.

Golf Accessories – In our book "always be prepared" means having a cold drink ready to share, presenting yourself well and leaving things better than you found them. Give the gift of preparedness with one or a combination of golf accessories like a cooler, ball and club washers, or sand and seed bottles for his golf course ride. Not only will his cart be the talk of the course, but you might even get a free drink or two out of the deal from that new cooler you gifted.

In-Dash 12-Volt/ SB Power Ports
#31875 **\$21.95**

12-pack Cooler With Rear Fender Mounting Basket
#29394 **\$48.95**

Universal-Fit Gifts that Make You Look Like a Boss Even When You Don't Know the Make/Model:

\$50 - \$100

Terry Cloth Seat Cover
#2008 **\$26.95**

Slip-On Seat Covers – Sometimes an indirect approach is best after mentioning repeatedly that you're tired of sitting on moldy seats half-eaten by the neighbor's Labrador Retriever. Why not spring for some slip-on seat covers that class up your uncle's golf car while also being friendly to your bottom line (literally and figuratively)?

Universal Storage Covers & Enclosures –

Wintertime elements can be problematic to carts that only get used seasonally. To help your friend's cart stay in cream-puff condition, get him or her a universal-fit storage cover or enclosure. When they thank you, just tell them you've always got them covered.

4-sided White Enclosure
#28903 **\$93.95**

Steering Wheel Upgrade – One of the easiest things to spiff up a stock cart is a new steering wheel. Get one to match the cart's color or go luxe with something woodgrain or carbon fiber. We bet pretty soon after, your spouse will get the bug to customize their cart even more. Don't say we didn't warn you.

**Red Rally Steering
Wheel Black Adapter Kit**
#06-058 **\$101.95**

of love is also energy-efficient and brighter than the halogen options. Now what's more romantic than that?

**Precedent
Rear Flip Seat**
#18110
\$349.99

or folded down, your partner will be thrilled with such a versatile gift. And they'll also be happy they didn't need a new eyeglass prescription after all.

6" Yamaha A-Arm Lift Kit Combo
#31133
\$689.99

While we've mentioned a lot of ways you can treat your loved ones to great golf cart accessories, don't forget about "A-Number-One." Be sure to slide a little something for yourself (or, hey, a big something – we're not judging) under the tree this year from the North Pole.

Your secret is safe with us.

When You Really Love Someone: \$100 +

LED Light Kit – Nothing says "you light up my life" more than an LED light kit. Think about it – you're saying that no matter what kind of golf cart adventure you get into with your spouse, the LED lights (a.k.a. you) are there to show the way. Whether you get lost on a trail or have to pick up your child from a slumber party gone wrong, there's nothing the two of you can't handle. And this beacon

**LED Light
Bar Kit**
#02-072
\$139.95

Rear Seat Kit – Rear seat kits offer much-needed options to a cart. After taking a very unscientific survey of our area, we were hard-pressed to find carts without rear flip seats. This is why you need to do that best friend of yours a solid and get them up-to-speed with everyone else who's inviting friends to impromptu outings or loading up the back with gear. They'll wonder what they ever did before you gave them more rear real estate.

Windshield – If your significant other squints a lot, it could be they have a grungy windshield. Upgrading your windshield makes a big difference. Not only does it add subtle polish to a cart, but it offers flexibility depending on your needs. Tinted or clear, fastened up

**Folding
Windshield**
#6024
\$97.95

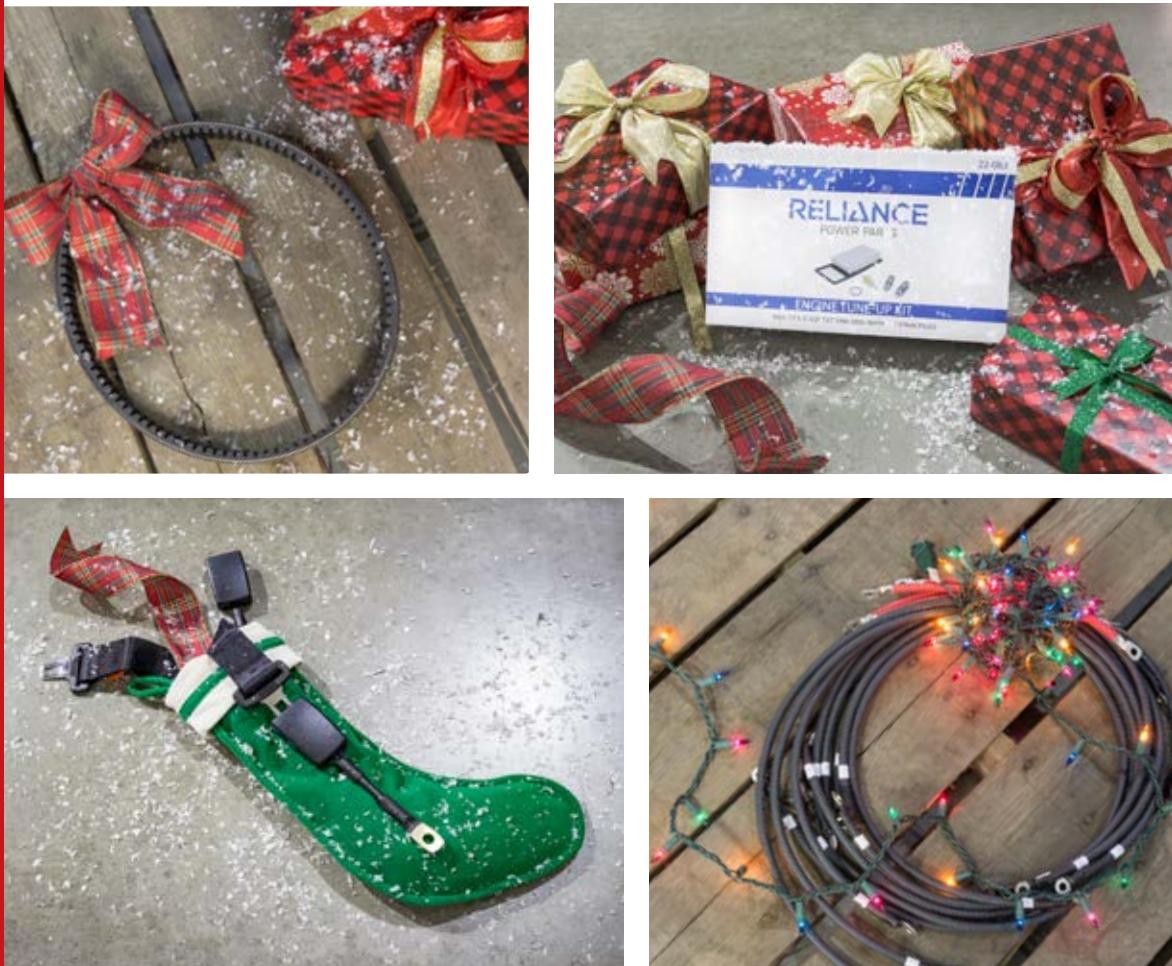

Lift Kit and Tire/Wheel Combo –

Ladies, let's chat for a second. Buying gifts for men can be troublesome. They don't know what they want, and if they do, it's something ridiculously expensive, like a new boat. Boys and their toys, amiright? So, what do you do? You end up getting him socks and undershirts. For all the times you bought him stuff he didn't use, you can make up for it this year with the ultimate in golf cart gifts that will make his friends jealous and will get you major points—a lift kit and tire/wheel combo! He'll be jumping curbs in no time and will even offer to do all the errands as long as he can take the golf cart.

THE RED DOT STORY

We could say that **Red Dot Enclosures** are made in the USA and use the highest quality fabrics, leaving the rest up to your imagination. But there's more to the story. From the initial pattern design to the final details, each enclosure is touched by many skilled craftspeople before it's shipped to your door.

Located in Tampa, Florida, Red Dot's facility houses a team of expert seamstresses that meticulously craft each and every enclosure, cover and seat cover – many of which are made to order. And the highest quality fabrics mentioned earlier? Those include Sunbrella® fabrics – a durable and stylish material that holds its own in the summer and winter months.

Red Dot's product development team is always innovating ways to make your life easier – whether that's incorporating curved zippers for easy entry or exit, or making sure their heavy-duty door-style enclosure frames stay closed or open while you're on the move. Each innovation and improvement keeps Red Dot at the top of the industry for quality.

Whether you need an enclosure to protect you from the elements or a custom storage cover to protect your investment in the off-season, Red Dot has a solution for almost every model cart on the market.
